# FANTASTIC OBJECTS

## Activity:

Describe an object that you consider to be fantastic. It could be your favourite toy or a special gift given to you. Why is this object special to you? How does it make you feel?

## Example:

*My rainbow slinky is a fantastic object to me. When I was a child, I spent lots of time at the hospital, having surgeries and waiting for x-rays. The waiting room made me very anxious and scared. I had a rainbow slinky that I would take to the hospital with me and I would play with it while waiting for appointments. I would get lost in the bright colours and the spiral patterns and by the time the doctor arrived, I wasn't that scared anymore. Even though I am 28 now, I still have a rainbow slinky that I play with sometimes. It's special to me.*
