

LET'S WRITE!

MY FAVOURITE PLACE ON EARTH

Activity:

Describe your **favourite** place on earth. Why is it your favourite place? How do you feel when you are there? Who/what is there? Describe the colours, textures, sounds and smells around you.

My Example:

When I was six years old, my favourite place in the world was my grandmother's garden. I liked to wander in it for hours with my tiny wooden crutches and pretend that I was exploring another planet. Sometimes, my crutches would sink into the dirt - I loved the gooey feeling of the soft earth! Crickets used to chirp while hiding in the bushes and there was brown soil everywhere! I sat under the walnut tree and played with ladybugs, and grandma would come outside sometimes to put sunscreen on my skin. It was my favourite place on earth because I felt very happy and safe inside the garden. It was like my own enchanted playground filled with interesting creatures!

Your turn! You can close your eyes if you like, and imagine being in your favourite place on earth. Begin describing it. Have fun!
